

Proposal of the subjects for Erasmus+ student

WINTER SEMESTER

UNDERGRADUATE STUDY		ECTS
Basis of design of vehicle (Part I)	Oleg Sitovskiy, PhD., associate professor	5
Mathematical modeling and simulation in industrial engineering	Igor Dudarev PhD, DSc, Professor	5
Fundamentals of automation and theory of automatic control	Dmytro Seleznov, PhD., associate professor	5
Research of technological systems	Igor Dudarev PhD, DSc, Professor	5
Modern information technologies	Ruslan Kirchuk PhD, Professor	5
CAD-graphics and design of machines	Ruslan Kirchuk PhD, Professor	5

SUMMER SEMESTER

UNDERGRADUATE STUDY		ECTS
Basis of design of vehicle (Part II)	Oleg Sitivskij, PhD., associate professor	5
Mathematical methods for scientists and engineers	Igor Dudarev PhD, DSc, Professor	5
Automobile Testing	Oleg Sitivskij, Ph.D., associate professor	5
Control and measuring systems in light industry	Dmytro Seleznov, PhD., associate professor	5
Automation of light industry production processes	Dmytro Seleznov, PhD., associate professor	5
Optimization methods and computer calculations	Ruslan Kirchuk PhD, Professor	5
